#### Acrylic face powder organizer description

Our make-up storage organizers are an ideal means to store large make-up collections and also contain suitable space to store any item ranging from eye liners, lip colors, eye shadows, concealer, foundation creams, and several other cosmetic items.

The acrylic organizers basically comprise of different compartments to store each item separately. Some organizers come with no more than a one tier facility that holds sliding compartments.

These facility make it easier to access the bottom of the box too. It is however considered that for better and easy location of the items customers need to be stored in separate compartments.
